2025 IMPACT REPORT

Issued February 12, 2026

AMERICAN MEAT SCIENCE ASSOCIATION

DEVELOPMENT COUNCIL

A MESSAGE FROM THE CHAIR

Amy Steward
Chair, AMSA
Development Council

On behalf of the AMSA Development Council, thank you for your support of the AMSA Endowment in 2025. Your generosity directly advances AMSA's scientific leadership, honors our accomplished members through awards and supports the development of students, the future leaders of our industry.

In 2025, driven by a deep appreciation for influential leaders in our field, six new mentorship funds were established, bringing the total to 47 active mentorships investing in the next generation of meat scientists. In addition, AMSA now recognizes 14 Legacy Society members who have chosen to include AMSA as a beneficiary in their long-term personal planning, such as through estate or will provisions. Together, these commitments reflect a shared belief in the long-term value of meat science and its people.

The Development Council works closely with AMSA staff to thoughtfully determine the most impactful allocation of endowment resources, and this report highlights how those investments are making a difference.

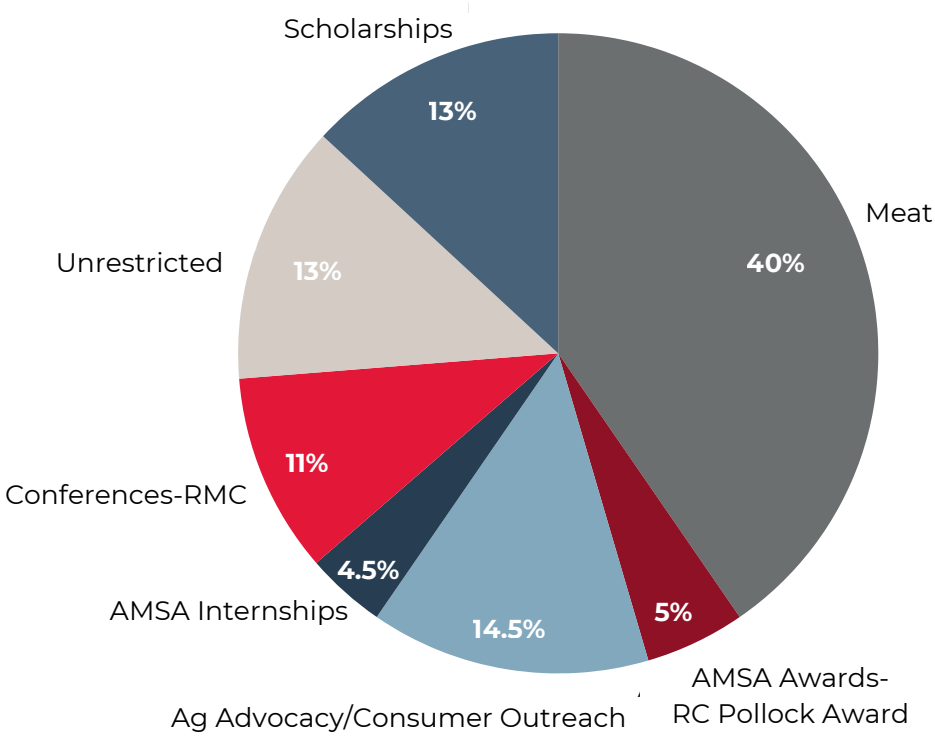

Through the *Meat the Future* campaign, AMSA is building a $10 million endowment, with a milestone goal of $5 million in current gifts by the end of 2026. The Development Council intentionally aligned this timeline with the celebration of the 100th anniversary of intercollegiate meat judging. We hope this celebratory year serves as a meaningful connection for meat judging participants, encouraging reflection on the foundation meat judging provided and inspiring them to give back to AMSA and meat judging through the *Meat the Future* campaign.

As of the end of 2025, lion in current gifts and $3.0 million in planned gifts have been secured, totaling $5.8 million in the endowment. We are actively pursuing $2.2 million in current gifts which is needed to reach the 2026 *Meat the Future* goal.

Thank you for helping us Meat the Future.

HOW ENDOWMENT FUNDS WERE USED 2025

The AMSA Board of Directors submits requests to the Council for Endowment funds.
All fund disbursements must be consistent with AMSA goals and policies.

Total Dispersed in 2025: $104,329

Up to 1% of the Endowment may be designated for administrative and fundraising activities; in 2025, this amounted to $30,000..

TARGETED USE OF FUNDS

Innovation Fund

The Innovation fund underwrites and cultivates initiatives which allow AMSA to reach the largest possible audience. Unrestricted Gifts made to the Innovation Fund allow AMSA to quickly address new or emerging opportunities, as well as to fund our highest priority efforts, including our annual scientific meeting, the Reciprocal Meat Conference

Youth Programs Endowment Fund – *Three Options:*

1. The Meat Judging Fund fosters future leaders, researchers and communicators by equipping them with skills needed to make positive contributions in industry, academia and government.
2. Youth Programs are programs and initiatives outside of judging that introduce students to meat, meat science and opportunities in the industry.
3. The AMSA Internship program provides unique hands-on opportunities in the U.S. and abroad for youth to experience their particular areas of interest.

Program, Communication, and Outreach Fund

AMSA serves as a leading resource for the meat science discipline. This fund supports the development and delivery of innovative programming, peer collaboration, and leadership initiatives that strengthen the profession and prepare future scientists.

- **Programming and Conferences**

  Supports the AMSA Reciprocal Meat Conference, PORK 101, SALUMI 101, educational webinars, and new programs developed in alignment with the Association's mission.

- **Education and Outreach**

  Supports continuing education and professional development initiatives, Meat and Muscle Biology (peer-reviewed journal), online articles and training resources, and outreach efforts representing meat science expertise on current and emerging issues.

Impact Through Science

ENDOWMENT FUNDS ARE UTILIZED TO POSITION AMSA AS AN OBJECTIVE SCIENTIFIC RESOURCE AS DEMONSTRATED BY:

Elevating data driven science to inform critical decision making.

Equipping members and key stakeholders with accurate information so they can confidently contribute to decision making conversations.

Being at the forefront of thought leadership in what impacts our industry.

STAKEHOLDER ENGAGEMENT

Prepare comments (oral and written) for submission relative to regulations that impact our business. Solicit input from members and ensure comments are objective and science based.

- Dietary Guidelines for Americans - multiple comment submissions
- *Ultra-Processed Foods Definition*

ADVOCATING FOR RESEARCH

- Collateral Developed
- NIFA Engagement
- Relationship Building with Government Roles
- Joined AFRI Coalition and NCFAR
  - Participated in “Fly-In” in Washington DC to represent Meat Science

SHARING MEAT SCIENCE PRINCIPLES

Varied formats are utilized to share science and technical information.

PRINT & ON LINE RESOURCES

Resource guides convey complex scientific concepts in shorter simplified format. They are a compliment to peer reviewed, full scientific papers, and an addition to the numerous existing materials available on our website, meatscience.org

JOURNALS AND PUBLICATIONS

Meat and Muscle Biology, the official journal of AMSA published a record number, 65 papers, in 2024. The journal is growing in popularity and credibility as it gets indexed in more databases. An Impact Factor, a metric among journals, approval was gained which will further enhance the attractiveness of the journal.

AMSA is responsible for one issue per year in Animal Frontiers according to our collaborative agreement. The 2025 February issue included papers presented at the Societal Role of Meat and Livestock meeting in Denver in November 2024.

HOW WE UTILIZE AND SHARE SCIENCE CONT.

WEBINARS

Ten webinars were offered to members in 2024. Topics address deep science, current issues, professional development and more. The Scientific Information and Education Committee is pivotal in providing guidance and speakers. All webinars are recorded and can be viewed on demand at meatscience.org

MEATSPAD PODCAST

The *MeatsPad* podcast, AMSA's official podcast, is a valuable platform for sharing insights with members and allied industries. Co-hosted by AMSA members Dr. Francisco Najar and Dr. Phil Bass, the podcast delivers weekly expert-led discussions on science, industry issues, research, student experiences, equipment, global perspectives, and more. Listen on Facebook, YouTube, MeatsPad.com, LinkedIn, Instagram, or your favorite podcast platform.

ONLINE COURSES

The need for access to training on demand, combined with the gap in training materials on specific topics, led to development of a platform to offer online courses. The Business of Meat was the first launched to provide the common terminology and basic business principles connected with meat beyond the production floor. A Basics of Packaging course will launch in 2026.

IN-PERSON COURSES

Five in-person courses were offered in 2025 with most filled to capacity, enabling people to directly gain meat science, meat production and processing principles in person. Collaborations with various institutions and subject matter experts make these classes possible, along with valuable sponsors.

RECIPROCAL MEAT CONFERENCE

A FORUM TO EXCHANGE AND LEARN

The Reciprocal Meat Conference (RMC) directly supports four of AMSA's core strategies by leading with science, delivering strong member value, investing in students, and engaging the international meat science community. As AMSA's annual scientific meeting, RMC strengthens collaboration across many aspects of meat production, processing, research, and distribution, connecting academia, industry, government and allied partners.

DISTINGUISHED TEACHING AWARD

2025 RECIPIENT

The Distinguished Teaching Award recognizes individuals who demonstrate excellence in teaching undergraduate and graduate-level meat science and who have made a lasting impact on student learning and professional development.

Dr. Ranjith Ramanathan

Oklahoma State University

Funded By
AMSA Development Council
Jim Riemann Mentorship

R.C. POLLOCK AWARD

2025 RECIPIENT

The R. C. Pollock Award is presented in honor of the first general manager of the National Live Stock and Meat Board. Pollock, a leader dedicated to the advancement of meat science, was the moving force in establishing the Reciprocal Meat Conference.

The award honors a dedicated AMSA member whose work through teaching, extension, research, or service represents an extraordinary and **lasting contribution to the meat industry.**

Dr. Chris Calkins

University of Nebraska-Lincoln

"I have been blessed with outstanding mentors, students, and colleagues, creative research collaborators, and a loving, supportive family. It's a privilege to mentor students and I count it among my most treasured professional accomplishments. The application of science to real-world problems has also been rewarding."

Funded By
R.C. Pollock Mentor Recognition Fund

Vern Cahill Mentor Recognition Fund

Students Are The *Future*

Investing in programs and opportunities that help them develop skills, passion, and excitement is a key focus of AMSA's Core Strategies. Endowment funds play a crucial role in supporting these initiatives, ensuring that students have access to valuable learning experiences that shape the next generation of meat scientists. Read on to explore the opportunities available and the impact that AMSA Endowment funds have on students.

Grace Grimes, University of Georgia
Summer 2025 Intern

"I'm so thankful for the opportunity to serve as the 2025 AMSA Communications and Education Intern. This experience gave me the opportunity to combine my passion for agricultural communications with my love for meat science. This internship has allowed me to grow both personally and professionally while working alongside an incredible team that is truly dedicated to advancing the industry. I've loved sharing the stories that highlight the people and purpose behind meat science. I am excited to carry these experiences into my future endeavors as I work towards a career in agricultural communications."

PURPOSE OF THE AMSA DEVELOPMENT COUNCIL

The AMSA Development Council (DC), a committee of the AMSA Board of Directors, was established in 2001 to generate and allocate resources that support educational programs and advance meat science knowledge.

With a focus on scientific leadership and student development, the DC invests in programs that strengthen AMSA's role as a trusted, science-based community while ensuring a strong talent pipeline for the future of meat science. By supporting initiatives that recruit and empower students, the council fosters the next generation of industry leaders.

Additionally, the DC expands AMSA's global reach, enhances collaboration, and helps address key industry challenges. Through financial stewardship and strategic funding, it plays a critical role in sustaining AMSA's mission and supporting professionals dedicated to feeding the world.

THE WORK OF THE COUNCIL

- **Develop and implement** strategies through which the Council may solicit, receive and distribute contributions.
- **Allocate** resources consistent with legal and regulatory requirements, the wishes of the donor, and the goals and objectives of AMSA.
- **Ensure** prudent investment of contributions made to the Council.
- **Develop and maintain** procedures for donor recognition.

THE STRUCTURE OF THE COUNCIL

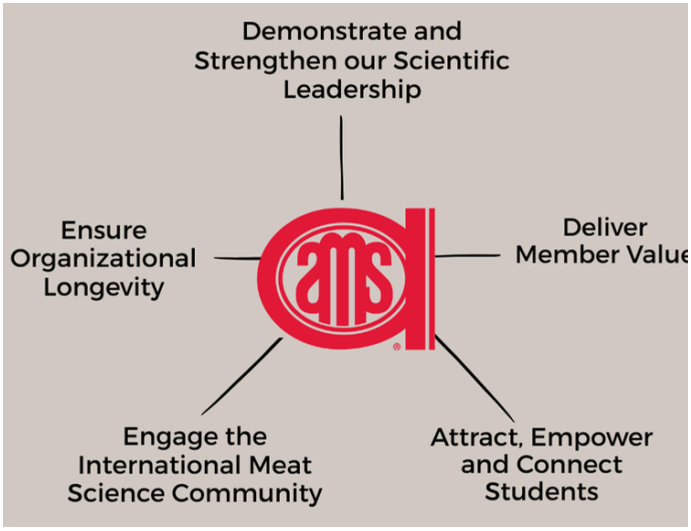

The Development Council was originally titled the Foundation. However, because AMSA is a 501(c)(3), already a not-for-profit, it was not appropriate to have a typical foundation. The Development Council was formed and now functions as a committee of the Board of Directors.

HOW THE DEVELOPMENT COUNCIL SUPPORTS AMSA'S CORE STRATEGIES

Core 1: Demonstrate and Strengthen our Scientific Leadership
Embrace our responsibility and obligations as a science-based community.

Core 2: Identify, Communicate and Deliver Member Value
Ensure sustained engagement, continued membership, and return on investment of time and resources for members.

Core 3: Attract, Empower and Connect Students
Introduce students to the diverse opportunities within meat science for the sustainability of the organization and profession.

Core 4: Engage The International Meat Science Community
Increase connection and collaboration to understand and address global opportunities and challenges.

Core 5: Ensure Organizational Longevity
Support and grow the mission through financial sustainability and operational excellence.

DEVELOPMENT COUNCIL MEMBERS

The Development Council is comprised of 8 members as outlined in our by-laws. Members are appointed by the Board of Directors and serve offsetting 2-year terms.

Amy Steward

John Scanga

Dan Schaefer

Brian McFarlane

Steve Goll

Mark Miller

Dean Pringle

Marcia Reeves

FUNDRAISING GOALS OF THE DEVELOPMENT COUNCIL

In support of the $5 million fundraising objective, the Council launched Meat the Future, a focused endowment campaign designed to accelerate near-term giving.

This year, the campaign is tied to celebrating the 100th year of intercollegiate meat judging, recognizing that many in the profession began their careers through judging and creating a meaningful opportunity to reconnect, reflect, and give back to the program and community that shaped them.

The Council is working toward achieving this goal by the end of 2026, marking a natural culmination of the campaign while reinforcing the Association's long-term sustainability.

American Meat Science Association Endowment Campaign

MEAT the Future

SUPPORTING THE DEVELOPMENT OF SCIENCE & STUDENTS

COMBINED GOAL
$10 MILLION

$5M
Of Long Term Planned Giving

$5M
By 2026, the 100th Year of Meat Judging

PROGRESS TOWARD GOALS

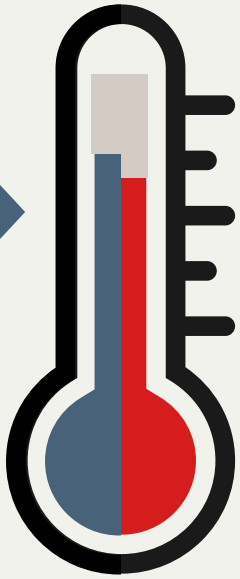

$10 MILLION

in contributions from both:

$5 M
Legacy Society
ongoing

$3,042,500

$5.8 M combined given to date

$5 M
Meat the Future
(2026 target date)

$2,835,964

The fund has grown to provide nearly **$800,000 to date** for scholarships, youth program support, internships, and program innovations.

WAYS TO GIVE

to either *Meat the Future* or *Legacy Society*

- **Direct Contribution**
  Including matching gifts from your employer
- **Planned/Estate Giving**
  Wills, Real Estate, Life Insurance, & Tangible Personal Property
- **Stocks & Appreciated Securities**
- **Grants from Donor Advised Funds**
- **Mentorships**
  Your donation to a mentorship fund is recognized under Meat the Future Campaign

MENTOR RECOGNITION PROGRAM

Mentorships are funds established by individuals or groups to recognize their mentors who have influenced their professional careers. They make a financial contribution and encourage others to do the same.

The fund can be designated for special activities in the name of the honored person and the fund can be contributed to at any time, even after it is designated as “fully funded” an amount that is usually $25,000.

SHARING SCIENCE AND CONNECTING TO OUR MEMBERS

Staying connected and keeping our members informed is a priority. In today's digital world, we do this through three social media channels and a weekly newsletter. A bonus? Social media helps our information reach those less familiar with meat science, equipping them with facts and insights about meat. Follow us to stay informed!
